For Delegate to Congress,
Granville H. Oury.

For Superintendent of Public Instruction,
W. B. Horton.

RECENT developments in Tombstone district, settle beyond doubt, in the opinion of mining experts, the permanency of its mines. Croakers have asserted that nothing would be found below the 500-foot level, and yet at 600 feet, in the Contention mine, one of the richest bodies of ore yet discovered, is just laid bare. There is a reported rich strike in the Vizina, at the same level, but as it is not authenticated, we cannot vouch for its truth. There has been no work done below the water level, for the reason that the character of ore, found there, must necessarily change, requiring different treatment by roasting and otherwise. A removal of reduction works, to the mine, would also follow, and it is not expedient to make all these expensive provisions, so long as the immense reserves of ore, now lying above the water level, are intact. The late developments evidence an increase of prosperity in Tombstone, for years to come, and when the time arrives for treatment of the ores below the water level, the population and wealth of this city will materially increase for the reason that the employees of the mills will draw their supplies and expend their money within its limits. At no time, in the history of this camp, has the outlook been brighter.

TRITLE's reception at Prescott must have been a brilliant affair. With Churchill as Grand Marshal, and the census Board of Supervisors for a body guard, the governor must have felt surrounded by a halo of glorious fraud. The President's proclamation combined with the Yavapai census returns, will form a suitable banner for Tritle to carry, in his race for Congress.

In regulating the precinct representation, the Democratic county central committee should adopt a basis resting upon justice and reason. Nothing should be done without deliberation, and no individual preferences ought to color the act of any member. The committee is representing a party, not individuals, and the success of the former is the paramount desideratum.

The air of Tombstone is heavily surcharged with political electricity, and ere long, many will be struck by the lightning of disappointment. The ranks of the Republicans will be particularly badly shattered. Even now every other file has succumbed.

The Republicans of Arizona are vainly hunting a candidate to pit against Granville H. Oury. Some one with more vanity than sense, will finally consent to be politically slaughtered.

The candidate of the Democratic party, for Superintendent of Public Instruction, is a moral gentleman, a scholar and teacher. These are all the qualifications needed.

The Tombstone fire department is much excited over the approaching election of a chief. It seems to be Blackburn versus McCann.

A prize fight is announced between Dibble and Blackburn, to settle disputed supremacy in the Republican party of Cochise county.

Let Democrats not forget to arm themselves by registration. Their neglect can only bring about Republican success.

Let the candidates for the legislature announce themselves, so the public may test their qualifications by inspection.

The pension bill passed by the present Congress will rob the people of not less than seventy-five million dollars.

PRESCOTT is the capital of Arizona, and the center of the Territory.

ARABI PASHA is the "prize ox" of Egyptian politics.

DEMOCRATS must register to vote.

NEVER was it more apparent to the people of the United States than at present, that a majority of Democrats should be sent to the next Congress. The Forty-seventh Congress run riot in extravagance and corruption, handling the money of taxpayers in a criminal and reckless manner, and absolutely refusing to reduce a single cent of direct taxation. Under a Democratic Congress two years ago the expenses of running the machinery of Government amounted to \$190,000,000. This year, under the management of a Republican majority, the appropriations were piled up to the enormous amount of \$293,555,489. A comparison of these figures is the best possible argument that can be made for the Democrats. The figures here quoted are official and it can be seen that, while a Democratic Congress maintained a guardianship over the treasury the public expenses were more than a hundred million dollars less than under the Republicans. Any idiot can see that the public service did not suffer during the six years the Democrats had a majority in Congress. How, then, could the extra hundred million dollars be expended, unless through reckless waste of public money, lavished on the lobbyists and jobbers that have always made the halls of Congress a headquarters when the Republicans were in power? If the people of the United States need any stronger proof of the utter unfitness of the Republican party, to manage the affairs of the nation, the selection of Keifer to the speakership is proof positive. This Ohio stalwart was elected to the responsible position of presiding officer of the House of Representatives through the friendship of Robeson, the latter knowing that the creature of his own creation could not go back on him. With such a record to submit to the freemen of the country, we cannot help thinking that the Republican party will be swept from power at the next election, unless a majority of the people have gone mad.

The general orders published to the army announcing the formation of a treaty with Mexico, by which troops from either side of the line can follow hostile Indians into either country, will meet with much favor in Arizona and along the frontier generally. This was something that should have been done long ago, as under the old plan the savages had the best of the game every time. Now troops from either side need not be deterred by boundary lines when on a hostile trail. The arrival of Mexican troops in Arizona in pursuit of Apaches should be warmly welcomed, and their efforts in that direction heretofore, complimented.

SOME of the City Councilmen claim that the salaries of policemen are fully sufficient for the services performed, as they also receive, in addition, fees for arrest. We are rather of the opinion, considering the heavy tax already levied upon property holders in the city, that \$100 per month is enough. Counting fees, the salary of a policeman amounts to four dollars per day, which is miners' wages, and the latter do much harder work.

A LETTER from Delegate Oury announces his departure from Washington, in a day or two. Upon his arrival in the Territory, he will, without delay, visit all sections thereof. His welcome will be cordial.

REPUBLICAN candidates and manipulators are rich in new hats and clothes. After election they will be as ragged as Falstaff's recruits.

THERE is an epidemic of sore-headism in the Republican ranks. Dr. Blackburn is in constant demand.

THE circulation of the EPITAPH is increasing at the rate of 100 copies per month. Advertisers take notice.

HOLLAND and Matthews will make a terrible run, on the home stretch. The Coroner's office is the goal.

THE mining expert is in demand, notwithstanding the Republican's repudiation of the breed.

RUNNING a daily newspaper embodies nothing but fun and work. Mostly the latter.

THE Republican candidates for Recorder are kicking like bay steers.

THE Yavapai census is an accepted fact. We can only grin and bear it.

BLACKBURN is wearing a new net to catch Republicans in.

YAVAPAI county politics appeal to the senses.

More Policy Here.
NEW YORK, August 11.—Wide differences of opinion exist among the friends of Ireland, as to what course they should take with reference to Arabi Bey. Dr. Wallace, president of the New York Irish Land League, says: The league cannot countenance sending money to Arabi because it is entirely antagonistic to the law which governs them. The league was founded for the purpose of sustaining the people of Ireland in their constitutional struggle for their rights, and does not advocate rebellious means for reaching that end. Mr. Gallagher, president of the Parnell league, says: We could injure England by supporting Arabi Bey, but we have chosen peaceful methods and we will not depart from them." This is views of moderate men, and reflect great credit upon the league.

Those of the present board who are acting with the dynamite section are headed by O'Donovan Rosa, and others, of the same turn of mind. They are for Arabi, out and out, their sympathies only being limited by their ability to help.

Yellow Jack.
GALVESTON, August 11.—There seems to be a panic over the yellow fever in Matamoras, and dispatches from there regarding the number of cases are exaggerated and contradictory. According to one account via Laredo the number on the 9th was fifty-six. A later dispatch reduces the number for the same day to forty, but that was a large increase. The daily average deaths for a week previous to the 9th being only thirteen. There are about fifty cases of yellow fever at Brownsville at present, and the number of deaths is not large, but the health officers are of opinion it will become an epidemic. There is no yellow fever in Texas except at Brownsville. Fort Brown is in strict quarantine. The post commander has decided not to remove his troops. A relief committee has been formed and \$4,200 subscribed.

Star-Route Cases.
WASHINGTON, August 11.—No conclusion was reached before the President left in regard to Ex-Senator Spencer. It was thought best that the President delay action a few days, in order that time may elapse for Spencer to send an explanation of his neglect to answer the subpoena in the star-route cases. Attorney-General Brewster is diligently at work preparing himself to make the closing argument for the Government in the star-route cases, although the counsel for the defense have given notice that they will oppose the Attorney-General making the closing argument.

The Memory of 700 Years Will Not Down.
PHILADELPHIA, August 11.—Captain William Cussack, a member of the Sarsfield Skirmishing Club, speaking about the Irish movement to give financial aid to Arabi Bey, announced that at their meeting last night, every man was in favor of helping, both by sending men and money, and that "we are in for dynamite and bullets, first, last and all the time."

A Fatal Blast.
POUGHKEEPSIE, N. Y., August 10.—A premature blast at Cornwall, on the west shore road, killed four, and wounded several others.

A Terrific Explosion.
SAN FRANCISCO, August 11.—A Valjejo dispatch says: The Hardy Powder Works, located one and one-half miles southeast of the city, exploded at 11:20 this morning. The blazing, drying-house and magazine were blown to atoms. The ruins took fire and nothing was left standing except the water tank and brick work surrounding the boiler. A. H. Hall, engineer, and Superintendent Dabney were burned, but have a chance for life. George Edgecomb and Fergus McArdle were killed. Fifteen tons of powder exploded.

The Southern Scourge.
LAREDO, Tex., August 11.—A substitute for a previous dispatch numbers the deaths from yellow fever at Matamoras, for 24 hours, at 40; at Brownsville, 13. Fort Brown is in strict quarantine, the post commander deciding not to remove the relief command forward. \$43,000 have been subscribed.

LAVINA, August 10.—A great anti-Christian demonstration at the funeral in Brianette of a Moslem man murdered, and who was reported killed by Christians. The police sympathized with the mob. Many Christians fled to the mountains and a score of others were arrested, but only one was killed. Further disturbances are feared.
